As Fullstack developer, I possess expertise in JavaScript (ES6), HTML5, CSS3, and proficiency in the MERN stack (MongoDB, ExpressJS, ReactJS, NodeJS).

What sets me apart is my unique perspective, derived from my background as a technical IT manager. In addition to my technical skills, I bring a robust set of soft skills such as effective communication, adaptability, and a rapid learning ability to the table. I am actively exploring opportunities that will enable me to broaden my technical knowledge and contribute significantly to innovative projects.

Having accumulated over a decade of international living experiences in diverse locations such as Italy, El Salvador, and The Netherlands, I also harbor a profound appreciation for various cultures and a genuine passion for connecting with new individuals.

🧠 SKILLS

- JavaScript(ES6)
- HTML
- CSS3
- MongoDB
- ExpressJS
- ReactJS
- NodeJS

📁 PROFESSIONAL EXPERIENCE

It manager
Embassy of Italy in San Salvador 2020-2021

- As the IT Manager at the Embassy of Italy, I undertook a pivotal role in overseeing and optimizing the technological infrastructure to support the diplomatic mission's operations. My responsibilities spanned a diverse range of tasks, from strategic planning to day-to-day technical support, ensuring the seamless functioning of IT systems critical to the embassy's mission.
- I led the development and execution of comprehensive IT strategies aligned with the embassy's goals and objectives. This involved assessing current technologies, identifying opportunities for improvement, and implementing cutting-edge solutions to enhance operational efficiency. I collaborated closely with embassy leadership to align IT initiatives with diplomatic priorities.

Zynga LLC San Francisco (remote)
